“

Harmonious, meticulously detailed surfaces
with impressive technical and aesthetic
properties: we design floor and wall
coverings, not tiles.

”

CAPRI

CAPRI came to life after a long search and after many attempts to mix three stones of different nature. In the end we managed to find the right mix: the Italian Collemantina marble, the French Imperiale marble and the slate from the Trentino-Alto-Adige Alps.

THICKNESS **2**

 ± 10mm  ± 20mm

FORMATS **4**

The company's mastery of production processes and extensive research and development take its products beyond all expectations, towards an aesthetic ideal that is always up-to-date, realized in collections that defy fashion, synonymous with beauty that continues to express itself over time.

Slate is the strong and gritty component, an iconic and layered stone that we used to form the basis of the project. To enrich the design we have integrated the defined and elegant veins of the Collemandina in the foreground and later the complex and elaborate grid of the fine veins of the Imperiale.
